

CourtMitra User Manual

CourtMitra is an AI-powered, multilingual platform designed to assist legal professionals with **case paper analysis** and the **generation of court documents** like orders and summaries.

1. Getting Started: Accessing the Platform

To ensure security, CourtMitra is restricted to registered users.

- **Sign In:** Access the login page and enter your registered **Email** and **Password**.
- **Google Integration:** Alternatively, you can use the "**Continue with Google**" option for a faster sign-in process.
- **New Users:** If you do not have an account, click "**Sign up**" to create one.

2. Case Paper Analysis

This feature allows you to analyze complex legal documents quickly using the **"Talk to the Document"** facility.

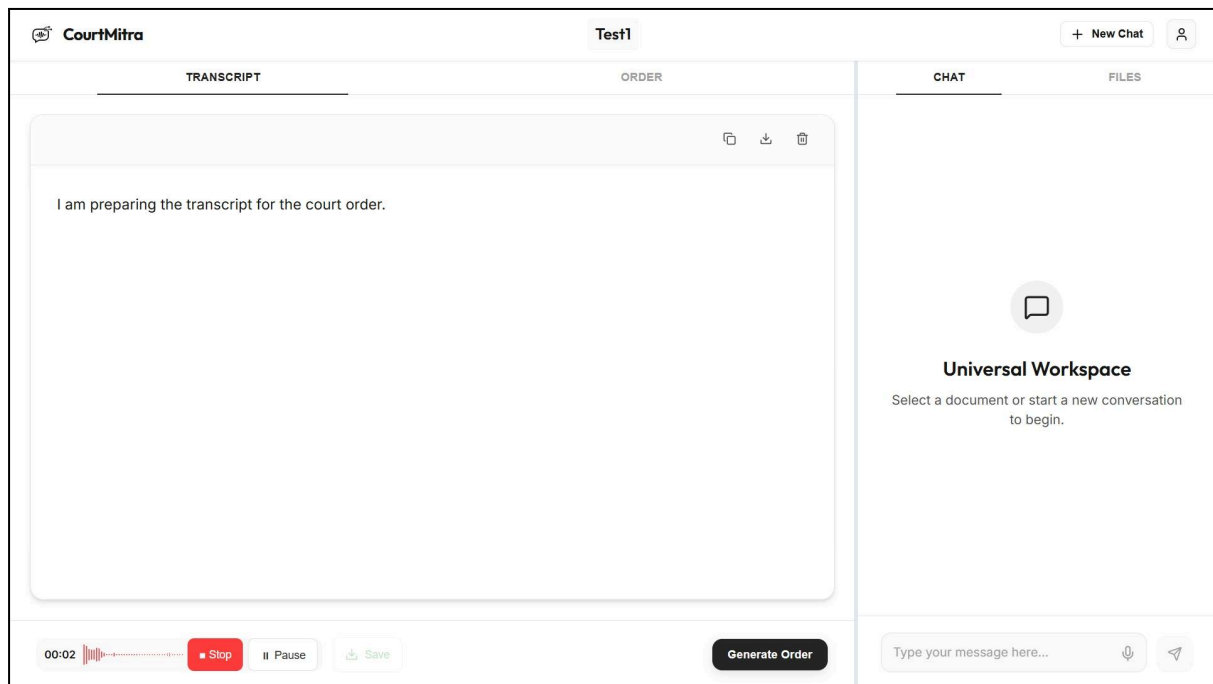

- **Upload Documents:** Use the **Files** tab or the upload facility to add the case papers you need to analyze.
- **Interact with AI:** Navigate to the **Chat** tab to ask questions about the document's content.
 - **Text Query:** Type your questions directly into the message box.
 - **Voice Query:** Click the **Microphone** icon to speak your questions directly to the AI agent.
- **View Summaries:** You can request a **"Summary of the Case"** or specific details like the **"Background of the Plaintiff"** to get an instant overview.

3. Court Document Generation (Transcription)

If you need to prepare a document through dictation, use the **Transcript** tab.

- **Language Selection:** Before starting, select your preferred language (e.g., **English, Gujarati, or Hindi**) from the dropdown menu.
- **Audio Input:**
 - **Direct Recording:** Click the **Mic** button to start recording. Use the **Pause**, **Resume**, and **Stop** buttons as needed.
 - **Upload Audio:** Use the **Upload** button to provide a pre-recorded audio file.
- **Editing:** Once the AI generates the transcript, it will appear in the main text area where it is **fully editable**.
- **Manage Audio:** You can **download** the recorded audio file for your records once the session is complete.

4. Generating a Court Order

Once your transcript is ready, you can convert it into a formal court document.

- **Convert to Order:** Click the **"Generate Order"** button located at the bottom of the Transcript tab.
- **Standard Formatting:** The AI uses a specialized knowledge graph to automatically format the transcript into a **standard court order** layout.
- **Final Review:** Navigate to the **Order** tab to view the generated document. You can fill in or edit specific fields like **Location**, **Case Type**, **Case Number**, and names of the **Petitioner** and **Respondent**.
